Subject; **Modular Transmitter Application**

Company name: **Stratasys Ltd.**
FCC ID: **YH6-DUPCAB1**

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for;-

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID: YH6-DUPCAB1 has been examined against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Doesn't have its own RF shielding
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	The modular transmitter has RS232 connection.
The module must contain power supply regulation on the module.	The modular transmitter has its own regulator onboard.
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	The Standard connector is available. Applied for Limited Modular Approval and a professional installation letter provided.
The module must demonstrate compliance in a stand-alone configuration.	The modular transmitter has been tested as a stand-alone operated device installed into the host equipment.
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	The modular transmitter has been labeled with its own FCC ID number. The user manual includes the phrase: "contains a transmitter module, FCC ID: YH6-DUPCAB1"

The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Refer to test report. Device complies to §15.209 and 15.207
The module must comply with RF exposure requirements	N/A

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	Page 1, para 2
2.3	Summarize the specific operational use conditions	Page 1, para 3
2.4	Limited module procedures	Page 1, para 4
2.5	Trace antenna designs	Page 2, para 5
2.6	RF exposure considerations	Page 2, para 6
2.7	Antennas	Page 2, para 7
2.8	Label and compliance information	Page 2, para 8
2.9	Information on test modes and additional testing requirements	Page 2, para 9
2.10	Additional testing, Part 15 Subpart B disclaimer	Page 3, para 10
